HISTORY.

On July 3rd, 1899, the Rev. Elias Boudinot Stockton D. D. assumed charge of St. James Parish as Rector, the vestry being composed as follows: William Jack Latta, Senior Warden; Martin Van Buren Starr, Junior Warden; Samuel Ferdinand Poorman, Treasurer and Clerk; Robert Bruce Stuart, Vestryman.

The former Rector, the Rev. Charles F. Stout, had resigned in the previous December, and the interregnum had been supplied by Sunday afternoon services by the Rev. William Galfin, Rector of St. John's Church, Elkhart.

On Sunday, September, 18th, 1898, there was a Solemn Te Deum and High Mass in commemoration of Almighty God's mercies and blessings vouchsafed during the war with Spain to the Army and Navy of the United States and especially to Company "C" of the 158th Regiment of Indiana Volunteers, that company being composed mainly of men from Goshen and vicinity. A full account of the details of the service will be found in the "Goshen Daily News" of September 19th.

On Monday, November 21st, 1898, the regular Parish Meeting, held at 7³⁰ P. M., there having been a Celebration of the Holy Eucharist in behalf of it the same morning at 7⁰⁰ o'clock, elected Martin Van Buren Starr, Senior Warden; William Herbert Charnley, Junior Warden; and Vestrymen: Fernan B. Leaming; Robert Bruce Stuart; Otis Levi Fuller; Leon Burdick Slaughter; Charles W. Miller; and Samuel Ferdinand Poorman. At its first meeting the vestry elected Fernan B. Leaming, Treasurer; and William Herbert Charnley, Clerk.

On the second Sunday after Epiphany, January 15th, 1899, the Rt. Rev. John Hazen White, D.D. Bishop of Indiana instituted, at the request of the Wardens and vestry, the Rev. E. Boudinot Stockton as Rector of the Parish.

The General Convention of 1898 having set apart the northern portion of the State of Indiana as a new Diocese; and the Rt. Rev. John Hazen White having chosen that portion as the sphere of his jurisdiction and called the primary convention to meet in

Ernest
Leeward
from July 3, 1898

HISTORY.

Michigan City, Indiana, on April 25th and 26th, 1899, the Wardens and Vestry elected as its lay delegates: Martin Van Buren Starr; William Herbert Charney; and Furman B. Leaming. Of these Mr. V. Starr attended the sessions of the Convention, and was a member of the Committee appointed to receive and examine the certificates of delegates.

On Saturday, June 10th, 1899, at a special meeting of the Vestry the Rev. E. Boudinot Stockton tendered his resignation of the Rectorship of St. James Church, to take effect upon the 30th of June following, in order that he might accept a call to Trinity Church, Winowski, Vermont. The resignation was accepted.

The present condition of the Parish is as follows:-

Introduction

The purpose of this study is to investigate the effects of various factors on the growth of a specific plant species. The study is divided into two main sections: a theoretical background and an experimental design.

The theoretical background section will discuss the known factors that influence plant growth, such as light, water, and nutrients. The experimental design section will describe the methods used to test the hypotheses.

The experimental design is a randomized controlled trial. The subjects are 100 plants of the same species, divided into two groups of 50. The control group will receive standard care, while the experimental group will receive a specific treatment. The results will be compared to determine the effect of the treatment.

The results of the study will be presented in a series of tables and graphs. The tables will show the mean values for each group, and the graphs will show the trends over time. The conclusions will be based on the statistical analysis of the data.

The study has several limitations. First, the sample size is relatively small, which may affect the generalizability of the results. Second, the study is a short-term study, and the long-term effects of the treatment are not known.

Despite these limitations, the study provides valuable insights into the effects of the treatment on plant growth. The results suggest that the treatment has a positive effect on growth, but further research is needed to confirm these findings.

The study was conducted by a team of researchers from the Department of Biology, University of XYZ. The study was funded by a grant from the National Science Foundation. The authors thank the reviewers for their helpful comments.

The authors declare that they have no conflicts of interest. The data used in the study are available upon request. The study was approved by the Institutional Review Board of the University of XYZ.

The study was published in the Journal of Plant Biology. The authors are grateful to the publisher for their support. The study is a contribution to the field of plant biology and will be useful to other researchers in the field.

CHAPTER 1

The first part of the book discusses the importance of understanding the basic principles of physics. It covers topics such as motion, forces, and energy. The second part of the book deals with the application of these principles to various physical systems. This includes topics like fluid mechanics, thermodynamics, and electromagnetism. The third part of the book focuses on the experimental methods used to study these phenomena. It describes the design and construction of various experimental setups and the techniques used to collect and analyze data. The final part of the book provides a summary of the key findings and conclusions drawn from the study.

Where no Roman numeral is prefixed the pages are to this volume. The Roman numerals refer to the two former volumes of the register.

The maiden names of married women are entered as cross-references; and their baptism and confirmation are placed under ~~that~~ married name.

Abbreviations are noted on the pages marked by their initial letter. Thus for "L" see index page L.
